SECRET, . 2 ... bordered blue epaulets. An additional unit of about 200 officers and with red-bordered blue epaulets and a dog-handler detail of about 50 EM with red-bordered black epaulets and about 15 dogs were also quartered in the Lufthriegsschule. The Hense building apparently was still occupied by about 100 M with black-bordered blue epaulets and 20 air force officers. The flight personnel exclusively consisted of Soviets, most of whom were officers. Seven or 8 of them were quartered in the spartment houses on Karl-Marx-Strasse and the others in the Hanse building. 25X1 25X1 Between 8 p.m. and 10 p.m., on 1 September, all the windows of the five buildings of the buttkriegsschule were lighted. 25X1 9. On 20 and 21 August, Po-2s practiced flying at the field. On 22 August after nightfall, a Po-2 was observed over Dresden. On 23 August, eight planes were parked in front of a hangar in the northeastern section of the field. Comment. No change occurred in the occupation of Bresden-Klotzsche sirfield. A motor vehicle distributing point of the Twenty-Fourth air army with an assigned motor vehicle driving school and an unidentified air force unit are stationed there. The air force unit conducts practice flights with Po-2s at the airfield. The eight low-wing monoplanes which were observed at the field after 25 July 1953 are again present at the field after a short period
